

## WellieWisher Heart Valentine Envelope

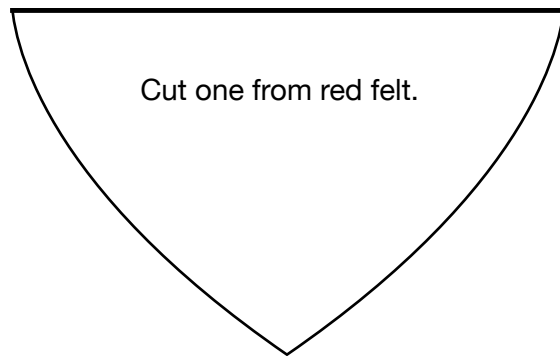

For this cute heart envelope we used regular red felt for the front and a stiff white felt for the back.

Cut out heart patterns and follow instructions on patterns. Sew the long white felt rectangle edge to the top of the front flap first. Then sandwich all the the rest of the pieces together. Place a small piece of ribbon (3 1/2 inches long) in a loop and sandwich between the white and red layer. Now sew all around the heart. All finished! Fill with mini valentine cards.

Cut one piece from red felt. Cut another piece from white felt with zigzag scissors slightly bigger than the red piece so the white shows from behind.

Cut one piece from white felt for top of front pouch. Use zigzag scissors on top.

Cut one from red felt.
