

Wellie Wisher Size Candy

1. Print this page on card stock.
2. Cut out each candy square. You should have 4 Twix, 2 Reeses, 2 Dots, and 2 Milk Duds. (Just cut out a rectangle around the milk duds.)

For boxed candy:

1. Fold the outer edges first.
2. Fold center folds.
3. Cut four cuts on the two edges so that there are 5 flaps per side. See picture #3
4. Glue the longest edge first with a glue gun. Then fold over the bottom flaps on the bottom end and glue.
5. Fill box with small beads for a shaking candy sound and glue last end shut.

For Twix bar instructions see this video:
